Dr. Lesens Watson -

Dear Sir:

You may remember I spoke to you about ordering a copy of the Botany of California when I saw you in Cambridge last summer - I have already had one bought for the library, but wish to get one myself. I find that it is not to be had in San Francisco, and shall be much obliged to you if you will have a copy sent me. Unless there is some special arrangement for sending by express I think it had better be sent by mail - If you will let me know what the cost is I will send you the amount at once -

Very truly yours,

Douglas H. Campbell.
